PROFESSIONAL SUMMARY

Software Developer with hands-on experience building full-stack web applications using C#, ASP.NET Core, React, SQL Server, JavaScript, HTML, and CSS. Strong foundation in object-oriented programming, RESTful API development, database design, Git, and software engineering principles, with a passion for writing clean, maintainable code and continuously expanding technical skills.

SKILLS

Languages: C#, Java, C++, JavaScript, SQL, HTML5, CSS3

Frameworks & Libraries: ASP.NET Core, .NET, Entity Framework Core, React, Node.js, Vue.js, Quasar Framework, Angular, jQuery

Databases: SQL Server, Azure SQL, MySQL, SQLite

Developer Tools:

Visual Studio, Visual Studio Code, Git, GitHub, Postman, IntelliJ IDEA, Android Studio

Cloud: Microsoft Azure

Concepts: Object-Oriented Programming (OOP), Full-Stack Development, RESTful API Development, MVC Architecture, Database Design, Responsive Web Design, Agile, SDLC

FEATURED PROJECTS

Fitness Equipment Store | ASP.NET Core, Vue 3, Quasar Framework, Entity Framework Core, Azure SQL

Built a full-stack e-commerce platform with JWT authentication, cart management, and order history across a normalized SQL Server schema.

Applied the DAO pattern and EF Core migrations to separate data access from business logic, enabling clean, testable API endpoints.

Helpdesk Management System | ASP.NET Core, C#, Entity Framework Core, SQL Server

Designed a layered architecture (DAL, ViewModels, Web API) with EF Core database-first scaffolding against an existing SQL Server database.

Documented and tested all endpoints via Swagger; implemented ticket logging, employee CRUD, and reporting views.

ConnectChat | React, Node.js, Express.js, Socket.IO, Material UI

Developed a real-time chat application supporting multiple rooms, live typing indicators, and message edit/soft-delete with automatic cross-client synchronization.

EDUCATION

Fanshawe College

Advanced Diploma, Computer Programming & Analysis

GPA: 3.95/4.2

London, ON

Expected: Dec. 2026

Relevant Coursework: Full-Stack Web Development, Software Engineering, Object-Oriented Programming, Database Design & SQL, Data Structures & Algorithms, Systems Analysis & Design, RESTful API Development

WORK EXPERIENCE

PepsiCo

Jan 2024 – Present

Merchandiser

- Managed inventory and product placement across multiple retail locations, working independently under daily deadlines.
- Identified and resolved stock discrepancies to maintain accurate placement without supervision.

Dollarama

Apr 2022 – Dec 2023

Team Lead

- Supervised daily store operations and coordinated team workflows during high-volume periods.
- Trained team members on inventory processes and customer service standards.
